

## ***E-Z FOLD 2000-S Textile Folding*** ***Innovative Automatic Textile Folders and Bagging***

---

### **E-Z FOLD 2000-S T-Shirt – Textile Automatic Folding SYSTEM**

The E-Z Fold 2000 Apparel Packaging system is the most popular line we manufacture and this system provides automatic folding, bagging & heat sealing of a variety of apparel products at production rates up to 1000 pieces per hour. The E-Z Fold 2000-S automatic folder incorporates actuated tucking adjusters and folding plate adjustments for quick change from adult Men and Lady sizes. This adjustable feature also allows for quick change over from T-shirts to golf shirts or sweatshirts. High –Speed, consistent folding bagging of screen-printed and embroidered garments are guaranteed through the use of our Teflon-covered folding plate.

Voltage required - 110 volts – 50 Hz - Other voltage is available. Compressed Air Required-100 lbs. PSI of Clean Compressed Air at 3-5 CF

Many layouts can be used so save packaging/folding Departments. It is simple to add a Bagger Seal, Counters, Stackers, Long Sleeve Attachments, Size Stripe Labelers and Conveyors.
