LS-4200-S LONG SLEEVE ATTACHMENT

The **LS-4200-S Long Sleeve Attachment** is the fastest Inline belt device for **folding of long sleeves**. Fleece, Jerseys, Long sleeve T-shirts, Sweaters, Jackets all can now be automatically folded. Change from long to short sleeve products in one minute or less. See EZ Fold 2000-S and LS-4200-S running in our Web Site. Other options is Auto Stacking MS-1500 and Auto Size Stripe Labeling L-15.

Attach the **LS-4200-S** to the infeed of **NEDCO's E-Z Fold** series of folders and others. The modular design allows for retrofit in the field. The **LS-4200-S** can be attached to many makes and models of Inline automatic folders. Variable speed tucking belts allow for operator choice of long sleeve fold location. This is NEDCO's New Patent Pending Design.

Mount the **LS-4200-S on an EZ Fold 2000-S** Auto Folder. This LS-4200-S unit will add approximately 4 feet to the length of
